Discussant:

- 2012** Undergraduate and Graduate Students' Perspectives on the Future of Women's Studies, Future of Women's Studies in Alberta Symposium, Calgary, AB.

CAMPUS AND DEPARTMENTAL TALKS

- 2021** **Research Methodologies and Methods for Virtual Reality Research Studies**, Presentation for the Digital Worlds - Research on Global Challenges Undergraduate Course, Department of Computer Science and Taylor Institute for Teaching and Learning, University of Calgary.
- 2021** **Queer Technologies - Integrating Intersectional Queer and Trans Perspectives into Learning Environments**, Workshop for the Education Students' Association at the Werklund School of Education, University of Calgary.
- 2021** **Queering Education**, Presentation for the Learning and Experience Graduate Educational Research Course, Werklund School of Education, University of Calgary.
- 2017** **Designing Immersive Virtual Realities for Learning about Gender and Sexuality**, Presentation to the Learning Sciences Department Colloquium, Werklund School of Education, University of Calgary.

DESIGN WORK

Paré, D., Windsor, S., & Craig, J. (2021). *Mementorium*. [Oculus Rift Virtual Reality Application]. Made with Unreal Engine.

Awards: Facebook Oculus Launch Pad 2019 Scholarship Recipient; 2021 Rosie Award winner for Best Narrative Game or Interactive Project.

My contributions: Game/interaction design, narrative design/branching narrative writing, voice acting, audio editing, sound design, Unreal blueprint sound integration.

Description: Mementorium is an interactive virtual reality narrative experience about the effects of gender and sexuality bias on identity development in STEM education. Oculus Launch Pad fellows had 4 months to develop a prototype VR application to apply for the Launch Pad competitive scholarship. Our team, Dylan Paré, John Craig, and Scout Windsor were awarded a scholarship to develop the application.

Exhibited at:

Festival of International Virtual and Augmented Reality Stories – FIVARS, Los Angeles, CA (October 15 – November 2, 2021).

Association for Computing Machinery Special Interest Group on Computer Graphics and Interactive Techniques (ACM SIGGRAPH) Immersive Pavilion, Virtual Conference (August 9 - 13, 2021).

Oculus Launch Pad Demo Day, Facebook HQ, Menlo Park (March 2020), Vertical Slice/ Demo Project.

Paré, D., Ang, K., Craig, J., Windsor, S. (June 2020 – Present). *Better Together VR*, Weekly live stream from VRChat (a multiplayer, social virtual reality platform) to share and discuss new developments in social VR. [YouTube: <https://www.youtube.com/bettertogethervr>]

My contributions: I curate a list of VRChat virtual worlds to visit during weekly live streams, manage social media (Twitter, Facebook, YouTube, Twitch, Discord), and communicate with VRChat creators from around the world. I also created original music for the start of every stream.

Description: A weekly live stream where the team explores multiplayer, virtual worlds and discusses aspects of design, community, and the future of social VR.

Paré, D., & Craig, J. (2021). *Flocking Bow Valley*. [Public Installation 2021; Online Simulation 2021]. Retrieved from <https://queercodecoll.github.io/Flocking-Bow-Valley/> Made with HTML, CSS, & JavaScript.

My contributions: Simulation co-design and co-development, audio recording and editing, participant engagement, public exhibition facilitation.

Description: A new iteration of Flocking QT Stories that features the stories of LGBTQ+ Bow Valley, Alberta temporary and permanent residents.

Exhibited at:

Canmore Pride and Canmore Festival of Art & Creativity, Canmore, Alberta (September 19, 2021).

Windsor, S., Craig, J., **Paré, D.,** & Ang, K. (2021). *NASA Perseverance Rover on Mars*. [VRChat Virtual World for VR and Desktop] Made with Unity. (Released February 19, 2021) https://vrchat.com/home/launch?worldId=wrlD_9be42be4-117c-4c44-b94c-bd8230d03ad1

My contributions: Music composition, sound design, Unity animations, basic UDON graph scripting.

Description: A virtual world made with Unity for VRChat (a multiplayer, social virtual reality application). Depicts the planet Mars with a life-size model of the Perseverance rover (asset from NASA), educational content, and fun activities (rover racing, drive-in theatre).

Exhibited at:

The virtual world was used for a public educational presentation by a NASA engineer to teach attendees about the NASA Perseverance mission on July 7, 2021. Our team also presented about the design of the virtual world.

A permanent exhibit in VRChat, released February 19, 2021.

https://vrchat.com/home/launch?worldId=wrlD_9be42be4-117c-4c44-b94c-bd8230d03ad1

Craig, J., **Paré, D.,** Cutler, M., Mattingly, P., Hladik, S., Kidney, J., Helvacı-Ozacar, B., Kim, B., Shanahan, M-C., & Sengupta, P. (2019). *Flocking Sounds*. [Installed November 2019] National Music Centre of Canada, Calgary, AB. Made with Processing 3.0.

My contributions: Simulation co-design, music/sound - technical integration.

Description: Flocking sounds is a reactive digital art installation and permanent exhibit of the National Music Centre that combines music with projected simulations of flocking birds

(Boids). Using sound made with objects and instruments in the space, visitors can modify the computer's code, thereby changing the shapes and patterns of the boids as they flock together.

Exhibited at: *A permanent exhibit at the National Music Centre of Canada, Calgary, AB.*

Paré, D., Craig, J., & Sengupta, P. (2019). *Flocking QT Stories: Agent-Based Modelling of Flocking and Gender and Sexuality-based Marginalization and Resilience.* [Public Installation 2019; Online Simulation 2020] Retrieved from <http://flocking.queercode.org>. Made with HTML, CSS, & JavaScript.

My contributions: Lead simulation design, audio recording and editing, documentary story collection and narrative co-design with contributors, HTML, CSS, and GitHub implementation for online.

Description: Flocking QT Stories is an interactive digital art installation that explores how computational simulations of emergent complex behaviours, combined with individual storytelling, might provide us with new ways to deepen our understanding of gender and sexuality-based marginalization and resilience through computer modelling, public coding, and art.

Exhibited at:

Online at <http://flocking.queercode.org> (May 2020 – present).

Werklund School of Education, DigiPlay (December 2019 – present).

ArtsPlace Canmore (September – October 2019).

TELUS Spark Science Centre, Adults Only Night: Beyond the Binary (May 2019).

Banff Centre for Arts and Creativity, Open Studio (April 2019).

Paré, D., Windsor, S., Craig, J., & Sengupta, P. (2018). *LGBTQ Narratives in VR.* Made with Unity.

My contributions: Lead designer, level designer, narrative co-design, audio recording and editing.

Description: Queer and Trans Narratives in Virtual Reality is a prototype, narrative project which uses multiplayer, virtual reality to explore relationships between gender, sexuality, bodies, and technology.

Exhibited at:

TELUS Spark Science Centre, Adults Only Night: Beyond the Binary (May 2019).

Banff Centre for Arts and Creativity, Story Studio (March 2019).

TEDxCalgary, Navigators (October 2018).

Beakerhead Art, Science and Technology Festival (September 2018).

Craig, J., Paré, D., Cutler, M., Helvacı Özacar, B., Sengupta, P., & Shanahan, M-C. *Flocking Music: Agent-Based Modelling of Flocking and Music.* Made with Processing 3.0.

My contributions: Simulation co-design, music/sound - technical integration.

Description: Flocking Music is an interactive digital art installation that simulates flocking behaviours through musical frequencies and encourages audiences to explore mixing music through coding and public art.

Exhibited at:

Banff Centre for Arts and Creativity, Open Studio (April 2019).

Paré, D., & Windsor, S. (Producers & Directors). (2018). *Creative Futures* [Short Film] & *Creative Futures 360°* [Short 360° Film], Canada: TELUS Storyhive. Short film edited with Adobe Premiere Pro. 360° film edited and animated with Unity.

My contributions: Co-producer, co-director, scriptwriter, 360° animating with Unity, film and audio editing for both films in Adobe Premiere and Audition.

Description: Creative Futures is a short, virtual reality art documentary and 360° companion film that combine art, technology, and gender and sexual identity. It is an official selection of the NSI Canada Short Online Film Festival, 2019.
